Web Development and Web Applications

jennycrawshaw@gmail.com

---

## Summary

As an organizer and manager of my own small business, I have learned through my marketing to clients that I have a real passion for developing websites and web applications.  After seeking out the technical skills needed to succeed in web development, I am looking to leverage my experience as a business owner with my growing tech skills.   I want to put my Back-end and Front-end development skills to work for a business or organization that needs web developers. I have the ability to design, develop, and deploy websites and applications, using a tech stack including Ruby on Rails, HTML, CSS, JavaScript, and Bootstrap.  I bring a technical skill set with an excitement for creating!  My personal portfolio can be found at http://jcrawshaw.github.io/ and my GitHub account is at https://github.com/Jcrawshaw .  When I am not building new web applications, I can usually be found trail running with my Belgian Malinois pup.

## Projects

Trail Run Finder

April 2015 to Present

Members:Jennifer Crawshaw

Trail Run Finder was my final project for my Bloc education. I developed a web application and database using Ruby on Rails. I designed the U/X to present a social sharing application using HTML, CSS and Bootstrap. I created web presence through social media marketing

Personal Portfolio

May 2015 to Present

Members:Jennifer Crawshaw

The first project with the Nanodegree program was creating a personal portfolio.  This project was created using HTML, CSS, and Bootstrap.

Blocmarks

February 2015 to Present

Members:Jennifer Crawshaw

Blocmarks is a social bookmarking web application with email integration. This web application was built using Ruby on Rails, HTML, CSS, JavaScript, and Bootstrap.

Blocipedia

January 2015 to Present

Members:Jennifer Crawshaw

Blocipedia is a  wiki application created to practice the fundamentals of web development using Rails 4, HTML, CSS, and Bootstrap.

Bloccitoff

November 2014 to Present

Members:Jennifer Crawshaw

Bloccitoff is a web application To-Do list, featuring a self destructing to-do item list feature. This was created using Ruby on Rails, HTML, CSS, JavaScript, and Bootstrap.

Bloccit

October 2014 to Present

Members:Jennifer Crawshaw

Bloccit is a Reddit clone built using Ruby on Rails, HTML, CSS, JavaScript, and Bootstrap. It was my first project with Bloc, to learn the fundamentals of web application development.

Interactive Resume

May 2015 to Present

Members:Jennifer Crawshaw

The second project in the Nanodegree Program.  This project used HTML, CSS, and JavaScript to create a dynamic and interactive resume website.

Arcade Frogger-Style Game

June 2015 to Present

Members:Jennifer Crawshaw

The Arcade Frogger-style Game is the third project I created in the Nanodegree program.  It uses Object Oriented JavaScript programming to create a game in HTML5 Canvas.

Trinity Trail Runners

May 2014 to Present

Members:Jennifer Crawshaw

This was a personal project I created for a local trail running group.  The website showcases the group's photo albums.  It was created with HTML, CSS, and JavaScript.
